This document is offered for informational purposes only and does not constitute an offer to sell any securities. An offer or solicitation will be made through the Prospectus and Subscription Agreement, and is qualified in its entirety by the terms and conditions contained in such documents. The Prospectus contains additional information needed to evaluate the potential investment and provide important disclosures regarding the investment objective, risks, fees and expenses of Series G. The information contained herein is confidential and is not to be reproduced or distributed except with the permission of SkyBridge Capital II, LLC ("SkyBridge" or "Adviser"), the Investment Adviser of the Fund, as successor to Citigroup Alternative Investments LLC.

On June 30, 2010, SkyBridge Capital acquired the Citigroup Alternative Investments LLC ("CAI") Hedge Fund Management Group, and replaced CAI as the Investment Manager to the portfolio. Accordingly, the results of the Portfolio through June 30, 2010 were not generated when SkyBridge acted as the Investment Manager. Raymond Nolte, Co-Chief Investment Officer of SkyBridge, was the Chief Executive Officer, Chief Investment Officer, and Chairman of the Investment Committee at CAI's Hedge Fund Management Group prior to June 30, 2010. There were no changes in the investment process or strategy following the change in the Fund's Investment Manager.

There were changes in the senior management and investment personnel and investment process of the previous Adviser in September 2005 when the tenure of the current portfolio management team commenced. It is not possible to know to what extent performance returns were impacted by such changes.

As described in the applicable Confidential Offering Memorandum or Prospectus, investing in the Portfolio is speculative, not suitable for all investors, and intended for experienced and sophisticated investors who are willing to bear the high economic risks of the investment, which can include:

- loss of all or a substantial portion of the investment due to leveraging, short-selling, or other speculative practices;
- lack of liquidity in that there may be no secondary market for the Fund and none is expected to develop;
- volatility of returns;
- restrictions on transferring interests in the Fund;
- potential lack of diversification and resulting higher risk due to concentration of trading authority when a single advisor is utilized;
- absence of information regarding valuations and pricing;
- complex tax structures and delays in tax reporting;
- less regulation and higher fees than mutual funds; and
- risks associated with operations, personnel, and processes of the manager.

Individual funds will have specific risks related to their investment programs that will vary from fund to fund.
